"SNAP YES!"- See New Achievable Possibilities In Business and Life

Today statistics show that almost 86% of employees are showing up to work totally disconnected from the company vision, mission and leadership. This disengagement is costing the American economy over \$550 billion dollars a year. What's it costing your organization?

Unless employees have hope that their internal obstacles can be demolished and removed, there is little chance to engage them on a deep level.

DeDe's interactive and powerful SNAP message shows attendees how to identify life long patterns of unproductivity and costly wishful thinking while delivering the tools that remove internal obstacles to success and turn goals and dreams into a profitable reality.

Are you willing to say "Snap Yes" even if it's unfamiliar and uncomfortable? Do you recognize your "No's" are habitual and detrimental to your success? Are you tuned out to the point you are missing out on career advancement and profitable opportunities? SNAP Out of It!

This high energy and interactive keynote teaches attendees to face constant change, exhibit grit, and empower follow-through by activating the heart and shifting the mind.

Attendees immediately walk away not only seeing new ways to use their talents and skills but more importantly, they feel empowered to make the tough choices and exercise the disciplines that create lasting and substantial change in their personal and professional lives.
